Description: In the spring of 1983 Terry Tempest Williams learned that her mother was dying of cancer. That same season, The Great Salt Lake began to rise to record heights, threatening the Bear River Migratory Bird Refuge and the herons, owls, and snowy egrets that Williams, a poet and naturalist, had come to gauge her life by. One event was nature at its most...

Review: Read this 15 years ago and just bought for a friend and reread parts. Interesting to read some of the negative reviews as this book has no negatives to it. I have given a couple copies to family members of dying patients over the years with great results. You dont have to be dying or have a dying friend to love this. It transposes nature and its cycles...
